

A schematic diagram of a vehicle exhaust system, labeled 10. The system is shown in a side cross-sectional view. At the front (left), a V-DRIVE engine (20) is connected to a TRANS (transmission) (22). The exhaust system (18) extends from the transmission. It includes a muffler collector (24) and a catalytic converter (26). The muffler collector (24) has an inlet (30) and an outlet (32). The catalytic converter (26) has an inlet (34) and an outlet (36). The exhaust system (18) is connected to a rear exhaust pipe (40). The rear exhaust pipe (40) has a flange (42) and a tailpipe (44). The tailpipe (44) has a hanger (46) and a rear flange (48). The rear flange (48) is connected to a rear exhaust pipe (50). The rear exhaust pipe (50) is connected to a rear exhaust pipe (52). The rear exhaust pipe (52) is connected to a rear exhaust pipe (54). The rear exhaust pipe (54) is connected to a rear exhaust pipe (56). The rear exhaust pipe (56) is connected to a rear exhaust pipe (58). The rear exhaust pipe (58) is connected to a rear exhaust pipe (60). The rear exhaust pipe (60) is connected to a rear exhaust pipe (62). The rear exhaust pipe (62) is connected to a rear exhaust pipe (64). The rear exhaust pipe (64) is connected to a rear exhaust pipe (66). The rear exhaust pipe (66) is connected to a rear exhaust pipe (68). The rear exhaust pipe (68) is connected to a rear exhaust pipe (70). The rear exhaust pipe (70) is connected to a rear exhaust pipe (72). The rear exhaust pipe (72) is connected to a rear exhaust pipe (74). The rear exhaust pipe (74) is connected to a rear exhaust pipe (76). The rear exhaust pipe (76) is connected to a rear exhaust pipe (78). The rear exhaust pipe (78) is connected to a rear exhaust pipe (80). The rear exhaust pipe (80) is connected to a rear exhaust pipe (82). The rear exhaust pipe (82) is connected to a rear exhaust pipe (84). The rear exhaust pipe (84) is connected to a rear exhaust pipe (86). The rear exhaust pipe (86) is connected to a rear exhaust pipe (88). The rear exhaust pipe (88) is connected to a rear exhaust pipe (90). The rear exhaust pipe (90) is connected to a rear exhaust pipe (92). The rear exhaust pipe (92) is connected to a rear exhaust pipe (94). The rear exhaust pipe (94) is connected to a rear exhaust pipe (96). The rear exhaust pipe (96) is connected to a rear exhaust pipe (98). The rear exhaust pipe (98) is connected to a rear exhaust pipe (100).
